

We are hiring!

## Business & Operations Manager (South Africa)

*Are you a natural problem solver and passionate about fintech? You might just be the missing piece we are looking for! You can be part of our team as we build a financial solution to empower the gig economy to access financial services.*

### Responsibilities

- Manage all company's business and financial operations in South Africa
- Serve as key contact for all internal communications and operational issues between global offices and personnel.
- Identify new revenue opportunities and target markets for company's products and services.
- Effectively manage several processes and systems that promote brand visibility and consistency.

### Requirements

- Degree in Computer Engineering, IT, Business Administration or any related discipline
- Minimum of 5 years in a Fintech/ startup with previous experience coordinating multiple stakeholders.
- knowledgeable in product commercialization and revenue management.
- An entrepreneurial type of person who can set up an entire new market from ground up with minimal supervision.

### Application

Candidates should send their CVs to [careers@imalipay.com](mailto:careers@imalipay.com) with the job title above.
